TASC are pleased to announce the introduction of 4 new courses which will provide a significant increased menu of courses to facilitate customer's increased roles and responsibilities.

### ASBESTOS IN SOILS AWARENESS

We are proud to announce that we have become only the 2nd training establishment in the UK to be verified and accepted by UKATA to deliver this course. This is a one-day course designed to follow the Asbestos Awareness (included in the price) course.

**Objective:** To provide an awareness of and develop knowledge amongst employees regarding the hazards and risks posed by soils and surrounding ground on sites that may contain ACMs. The course further gives an overview of the legislative measures and guidance available to safeguard employees.

**Who is it for?** Supervisors and trades personnel, including trainees, such as but not limited to: site managers/supervisors/agents, site remediation employees, construction workers, ground workers, plant and machinery operators, utility installers/maintainers and other such professionals. Architects, building surveyors, designers (including principal designers) and other such professionals may require a more developed course which includes the core syllabus in this course, together with an additional module which includes the interaction between the various duties under the Construction Design and Management Regulations 2015 and those within the CAR.

**Cost is £150 + VAT**

including both courses (UKATA Asbestos Awareness & Asbestos Awareness in Soils), exam and certificate on successful completion.

If you have completed a UKATA Asbestos Awareness course within the last 6 months and have your certificate, then this is a ½ day course and cost is **£95**.

**This course does not train you to work with Asbestos**

### IOSH WORKING SAFELY

**A day can make such a difference...** Working Safely is a one-day course for people at any level, in any sector, that will boost business performance and staff motivation. How? Simply by showing how everyone can enhance their safety, health and wellbeing through everyday behaviours. This is a completely different approach to safety and health training: a high-impact programme designed to be fun and inclusive. No jargon, no legalese - just inspirational learning that's enjoyable, stimulating and effective. This enhances our IOSH training courses and compliments the IOSH Managing Safely course already available.

**Cost is £150 + VAT**

which includes a workbook, exam and certificate on successful completion of the course.

### ASBESTOS AWARENESS FOR GROUNDWORKERS

**Objective:** To provide an awareness and develop the knowledge amongst employees as regards the hazards and risks posed by asbestos containing materials (ACMs) in soils. The course further gives an overview of the legislative measures in place to permit employees to safeguard themselves and others affected by work activities. This is a similar course to the Asbestos Awareness course but with more of an emphasis on soils and soil content.

**Cost £95 + VAT**

including exam and certificate on successful completion.

**This course does not train you to work with Asbestos.**

### NON-LICENSABLE WORK WITH ASBESTOS INCLUDING>NNLW FOR GROUNDWORKERS

**Objective:** To provide the delegate with the theoretical and practical skills to undertake non-licensed works with ACS's & ACM's. Persons requiring this type of training would include trade operatives undertaking tasks with ACS' & ACM's as defined in HSG210, in accordance with CAR 2012 Reg 3(2) & CAR: Soil.

Any persons carrying out non-licensed works with asbestos containing soils and asbestos containing materials, as laid down in CAR 2012, Reg 3(2) & CAR:Soil.

**Cost £150 + VAT**

including exam and certificate on successful completion.

**PLEASE NOTE: MINIMUM COURSE NUMBERS APPLY ON ALL COURSES.**
